

Mobility Report

WP No.: 3

Del. No. : 5

Del. Title: Visits of Jordanian Partner Academic staff to EU

Name of Staff: Haythem Bany Salameh and Awni Tradat

Convention Ref. No.:

1. Description of the training course

Please provide a description of the training programme, training modules

We have visited the electronic and computer engineering department at QMUL. We also visited the various research labs and learned about their education system and engineering curriculum.

We also visited the IET to get more information about the IET accreditation process. In specific, we attended a seminar by the Academic accreditation manager Alison Haggart (ahaggart@theiet.org), where she briefed us on how to apply for IET accreditation (submission for accreditation). We also met Dan Canty (dcant@theiet.org), Accreditation and Award Manager. Dan talked about the IET accreditation at the Master level and mentioned some tips and hints to get the accreditation (e.g., admission requirements, student intakes, equipments, and students to faculty member ratio).

2. Activities Conducted

Please describe the activities carried during mobility and how mobility helped and/or will help achieve the project's objectives.

Visits to the research labs in QMUL.

Visits to electronic and engineering department.

Attending seminars at IET facilities about program accreditation.

3. Obstacles and shortcomings

Please describe any obstacles and/or shortcomings experienced during the period covered by the report and the measures taken by the project team to address them.

**Unavailability of QMUL staff as most of them where in China during our visit.
Lack of well-prepared training program (again due to staff travels).**

4. Planned Activities

Please also indicate the activities you plan to carry out after you attended the training course.

Send the current master program to the IET office along with the curriculum review report to get a direct feedback that would help us in designing our new programs according to the IET standards.

Invite the IET accreditation manager to visit YU to give talks about the accreditation process, and to check the facilities available at YU.

Contact the IET office in UK to start the accreditation process once our new programs are developed.

Telecommunications Engineering Department
Yarmouk University
Project: 511074-TEMPUS-1-2010-1-JO-TEMPUS-JPCR

5. Any other comment

Please provide in this entry, any relevant information you think might be useful for the assessment of your mobility (i.e. synergies with other projects, any support from external environment, networking with professional bodies, etc.).

NA

6. Overall Evaluation of the training course

Item	Grade out of 5
Training material	3
Trainer quality	3
Place of training	3
Contact person help in coordinating contact with staff members of host	4

7. Attachments

Please submit this report along with all training material at most one week after mobility is conducted.
